600X1200MM

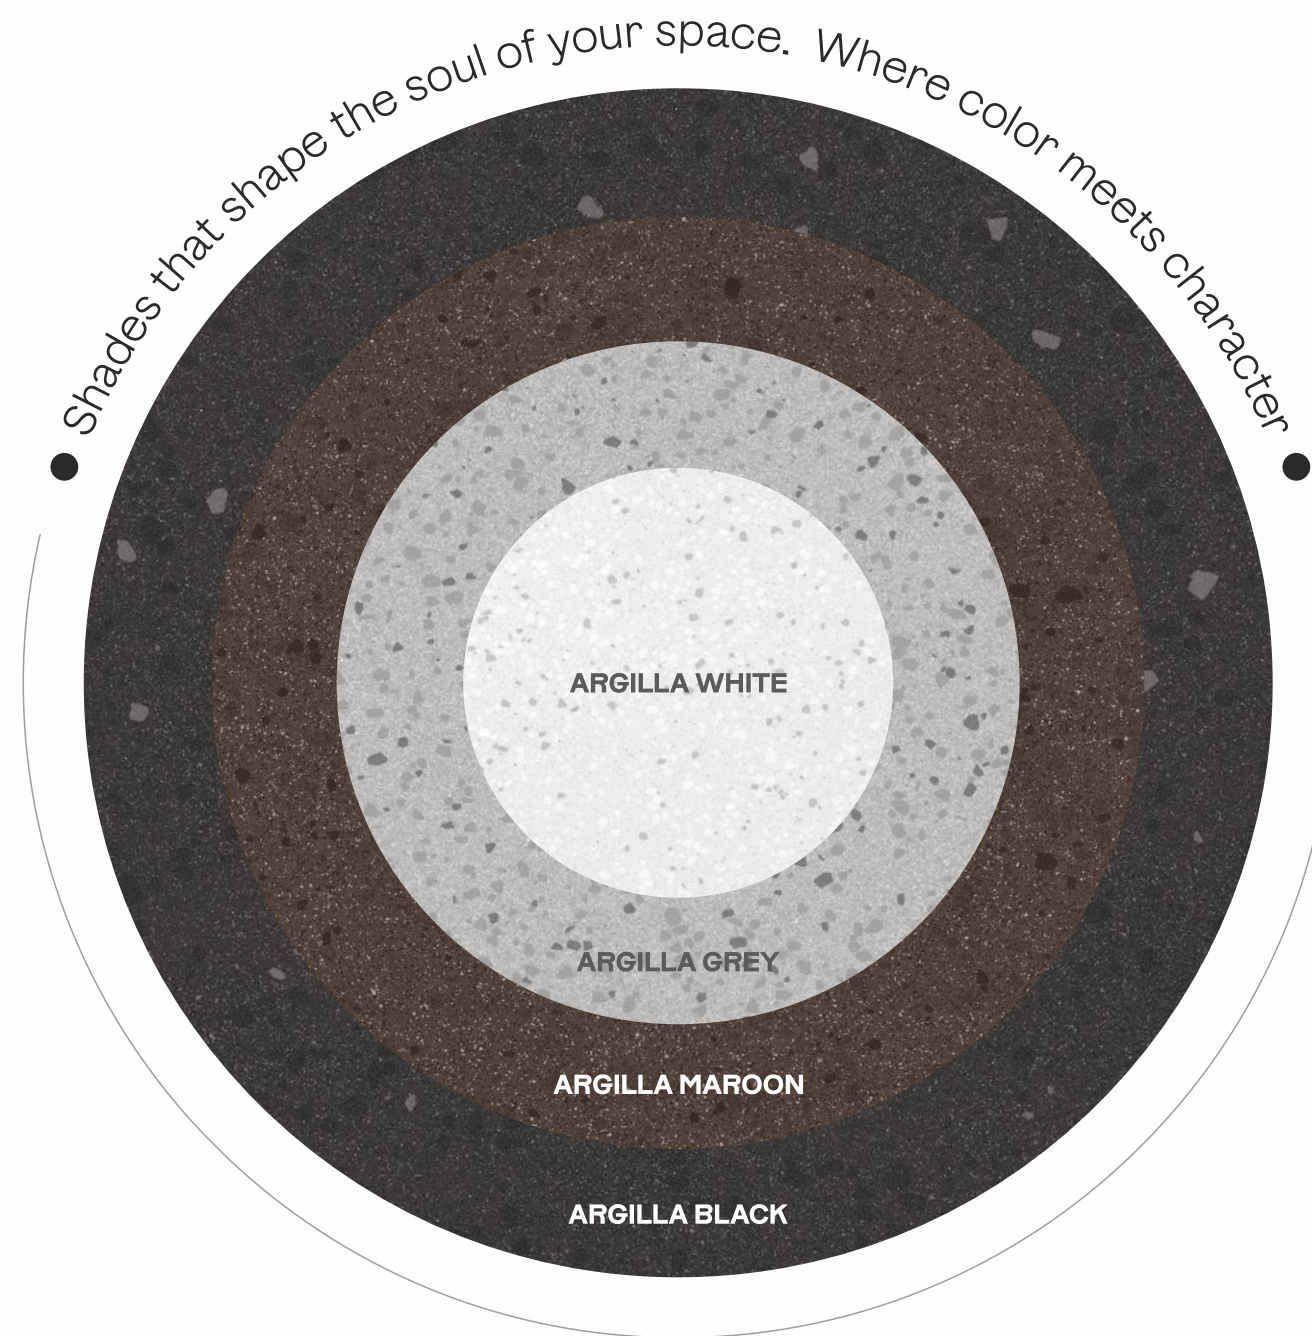

THE NOBILITY OF MARBLE AND THE REFINEMENT OF COLORED VEINING FIND THEIR PERFECT BALANCE IN PURITY OF TILES.

ARGILLA WHITE terrazzo tile forms the luminous core of the collection. Flecked with subtle gray speckles that dance across its milky surface, this shade brings lightness and expansion to any space. The delicate matrix of marble chips catches light in varied ways, ensuring no two installations are ever identical.

The rich warmth of **ARGILLA MAROON** introduces bold character with its deep burgundy base. This distinctive terrazzo features carefully curated aggregate in varying sizes and shades, creating visual movement across the surface. Argilla Maroon transforms ordinary spaces into expressive environments that balance historic charm with modern sophistication.

ARGILLA GREY presents a sophisticated middle ground between contrast and neutrality. This versatile terrazzo incorporates fragments of quartz and recycled glass within its cement base, creating depth that shifts with changing light. The nuanced palette makes it ideal for both modern and traditional design schemes while offering practical durability.

Anchoring the collection is dramatic **ARGILLA BLACK**, a terrazzo masterpiece of remarkable depth. White and gray marble chips suspended in the rich ebony base create a celestial effect reminiscent of a night sky. The high-contrast composition ensures visual dimension rather than flatness, making an unforgettable impression in entryways and statement installations.

The terrazzo tapestry of timeless elegance

Barefoot Dreams, Ironclad Reality
Step into the paradox of delicate beauty with fortress-like fortitude. Our tiles whisper luxury while shouting durability—a symphony of science and artistry where frost fears to tread and acids admit defeat. Easy to install yet impossible to ignore, they invite both admiration and relaxation. Let your floors become the unsung heroes of your haven, silently protecting while perpetually pleasing.

Urban Depiction Of Nature

**600X
1200MM**

Our premium collection offers two distinct personalities for your space—captivating glossy that amplifies light with mirror-like brilliance, and sophisticated matte that embraces subtle elegance through gentle diffusion. Both finishes maintain our signature eight-fold protection against daily challenges, ensuring your aesthetic choice never sacrifices performance. Whether you prefer the dramatic statements of reflective surfaces or the contemporary whisper of textured restraint, your language of luxury awaits.
